

Researchers: Dr Deirdre Barron (SUT), Sheila Marion (OSU) & Natalie Ebenreuter (SUT)
Faculty of Design, Swinburne University of Technology

The Transference of Dance Information through Interface Design

Consent form for persons participating in usability testing

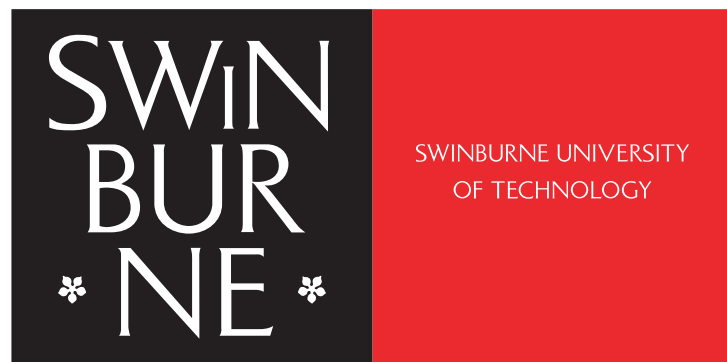

- I _____ consent to participate in the project titled above. Details of the manner in which this research will be conducted have been clearly explained to me. I have been supplied with documentation that I may keep outlining the protocol of usability testing and the completion of a user feedback survey.
- I agree to participate in this activity realising that I may withdraw at any time without explanation or prejudice. This will include the exclusion of data collected prior to my withdrawal.
- I understand that the confidentiality of the information I provide will be safeguarded.
- I agree that data collected for the purposes of this research may be published or made accessible to other researchers that could benefit significantly from these findings under the condition that anonymity is maintained.
- I understand that participation or non-participation in the research will have no affect on the grades and assessment of my current course of study.

I voluntarily agree to participate in this study, having read and understood the description of this study and of my rights as a participant.

Name of participant: _____

Signature: _____

Date: _____

Boqio Project

Applications Domain, Bell Labs France

Consent form for persons participating in research interviews

- I _____ consent to participate in the project titled above. Details of the manner in which this research will be conducted have been clearly explained to me. I have been supplied with documentation that I may keep outlining the protocol of this interview and the use of a voice recorder.
- I authorise the researcher named above to make use of a voice recorder on the condition that this information is not released in the public domain. Any questions I have raised have been answered to my satisfaction.
- I agree to participate in this activity realising that I may withdraw at any time without explanation or prejudice. This will include the exclusion of data collected prior to my withdrawal.
- I understand that the confidentiality of the information I provide will be safeguarded.
- I agree that data collected for the purposes of this research may be published or made accessible to other researchers that could benefit significantly from these findings under the condition that anonymity is maintained.

I voluntarily agree to participate in this study, having read and understood the description of this study and of my rights as a participant.
